

## REMARKS

Reconsideration of the amendments to Claims 1 and 22 and entry of this amendment on the ground that the amendments overcome informal language noted by the Examiner.

Claim 1 has been amended to change "protein-wasting" in lines 14-18 to --colony-forming--. The term colony-forming agrees with colony-forming immunogen found in line 2 of the claim. This amendment does not change the substance of Claim 1.

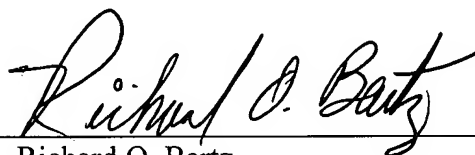

Claim 22 has been amended to change "substantially prevent" to --inhibit--. The Examiner has objected to "substantially prevent" as indefinite. This amendment does not change the substance of Claim 22.

Entry of this amendment is requested.

Respectfully submitted,

PETER NASH ET AL
